

Hydroxym™ Gel

Hydrocortisone 2%

Contains Aloe

NDC: 59088-209-03

DERMACIN_{Rx}

Description:

Hydroxym™ Gel is a steroid (corticosteroid) medicine. Gel is more quickly absorbed by the skin. It works by calming down your body's immune response to reduce pain, itching, swelling and inflammation.

Hydroxym™ Gel is used to help relieve redness, itching, swelling, or other discomfort caused by skin conditions.

Unit Detail:

1 oz (28 g) tube

Dosage:

Apply a thin film to the affected area not more than 2 to 4 times daily depending on the severity of the condition.

See reverse for complete prescribing info

Hydroxym™ Gel

Hydrocortisone skin treatments can be used to treat swelling, itching and irritation related to eczema, psoriasis, contact dermatitis, prickly heat rash, insect bites and stings, and nappy rash helping your skin heal faster.

Dosage and Administration: Topical corticosteroids are generally applied to the affected area not more than two to four times daily depending on the severity of the condition. Occlusive dressings may be used for the management of psoriasis or recalcitrant conditions. If an infection develops, the use of occlusive dressings should be discontinued and appropriate antimicrobial therapy instituted.

Warnings:

For external use only

Do not use:

- In the eyes
- If you are allergic to any of its ingredients
- Over large areas of the body longer than one week unless directed by a doctor

Stop use and ask a doctor if:

- Condition worsens
